

ATHARV KAWALASE

Java Backend Developer | Software Developer

Pune, Maharashtra, India | atharv.04.kawalase@gmail.com | github.com/Atharvk04 | linkedin.com/in/atharv-kawalase

PROFESSIONAL SUMMARY

Results-driven Software Developer specializing in Java, Spring Boot, and relational database systems. Proficient in designing scalable RESTful microservices, crafting optimized MySQL database architectures, and integrating modern React frontends. Passionate about clean code, modular MVC/DAO paradigms, and high-reliability backend engineering.

TECHNICAL SKILLS

- Programming Languages:** Java (Java 8, 17+), C, C++, JavaScript, TypeScript, SQL
- Backend & Frameworks:** Spring Boot, Spring MVC, Spring Security, Hibernate, JPA, JDBC, Servlets, REST APIs
- Database Systems:** MySQL (Indexing, Joins, Triggers, Views, Normalization), PostgreSQL
- Frontend Technologies:** React.js, HTML5, CSS3, Tailwind CSS, JavaScript (ES6+)
- Tools & Architecture:** Git, GitHub, Maven, Postman, Linux/Unix Shell, MVC Architecture, DAO Pattern, OOP

PROFESSIONAL EXPERIENCE

Application Developer Intern

Oct 2025 – Apr 2026

NexaNova ProTech — Pune, India

- Engineered scalable backend service layers and modular controllers using Java 17 and Spring Boot for core business flows.
- Designed, implemented, and rigorously tested production RESTful APIs with Postman, enforcing robust payload validations and status codes.
- Formulated optimized MySQL schemas, complex multi-table joins, transactional constraints, and indexes to minimize query latency.
- Collaborated with frontend engineers to seamlessly integrate asynchronous React.js components with backend endpoints.
- Managed code branching, peer code reviews, pull requests, and automated Maven build lifecycle workflows via Git/GitHub.

KEY PROJECTS

AI-Powered Interview Preparation & Placement Assistant

github.com/Atharvk04/ai-powered-interview-prep

Tech Stack: Java, Spring Boot, MySQL, REST APIs, React.js, Generative AI APIs, Maven

- Architected an end-to-end placement prep platform simulating adaptive engineering mock interviews with tailored scoring rubrics.
- Developed backend text extraction and resume parsing services to map candidate skill gaps against required technical competencies.
- Implemented context-aware AI interview question generation and response evaluation micro-flows with relational performance tracking.

Online Shopping Cart Web Application

github.com/Atharvk04/ShoppingCart

Tech Stack: Java, JSP, Servlets, JDBC, MySQL, HTML5, CSS3, Session Management

- Built an enterprise e-commerce platform featuring dynamic catalog browsing, session-based carting, and secure user authentication.
- Created a comprehensive administrative back-office supporting full CRUD operations on inventory, categories, and order tracking.
- Enforced strict ACID transaction guarantees with JDBC connections to ensure consistent stock quantity and billing states.

EDUCATION & ACADEMIC ACHIEVEMENTS

B.Tech in Electronics & Computer Engineering — MIT ADT University, Pune

2021 – 2025 | CGPA: 6.93

Higher Secondary Certificate (HSC) — Maharashtra State Board

Completed 2021 | Score: 88.67%

- Best Research Paper Award: Recognized for outstanding presentation on "Admission Assistant Robot" dialogue automation system.
